## Food

In a quest to explore the undiscovered limits of each ingredient, and in accordance with the principles and values of our innovative kitchen philosophy, we prioritise using the freshest produce to create exceptional dishes.

We own and operate plots of land in Istán and Marbella, and we also grow some of our herbs in the restaurant using ecologically friendly agricultural methods, thereby ensuring that we deliver on our promise of bringing only seasonal and locally available produce to your table.

## *Drinks*

In addition to the food and the venue, the drinks selection also plays an essential role in ensuring your special event becomes a reality.

And if you're looking for a special wine to feature at your function, by all means ask our events team and we will do our very best to source it for you.

## Photos

Make the memories from your event last forever! Social Print allows you to instantly print your pictures at Cascada, as a personalized Polaroid photo to take home as a souvenir. It takes three simple steps: take a photo, post it on Instagram using a specific hashtag, and get it printed!

A personalized #Mr&Mrs hashtag on Instagram creates a collaborative online gallery of your wedding day, which your guests can add to throughout the event. It also allows guests who haven't been able to join the wedding celebrations to have a glimpse of your special day.

For corporate events, this is a great marketing tool to create visibility for your event. Your attendees post on Social Media, giving your event exposure to their circle, achieving higher engagement rates.
